

Conference Editorial Board for EMBC 2016, Orlando

I would like to sincerely thank the following members of the Conference Editorial Board. There were 3740 submissions overall. 2237 of these were 4-page manuscripts that were part of our rigorous peer-review process. In a period of several weeks, these papers were reviewed with on average three reviewers per paper, but a minimum of two. Theme editors also made initial “accept/reject” decisions and created a draft scientific program for each theme. Each year for the past five years we have improved the quality of the papers being submitted with a steady and continual increase in the rejection rate but more significantly a rise in the overall paper ratings and level of feedback given to authors. Without the continued dedication and commitment of the Editors, Associate Editors and Reviewers, our EMB Annual Conference would not be able to run. I would also like to take this opportunity to give a heartfelt thanks to Atam Dhawan, who’s extensive help on special topics items was critical for the tight timeline. I also warmly thank the members of the Editorial Board, listed below, who made my work a real pleasure. It’s been an honour and privilege to be part of such a fine community.

Jim Patton, Editor in Chief for Conference Editorial Board, EMBC2016

Theme Editors

Theme 01. Biomedical Signal Processing

Editor: Riccardo Barbieri
Co-Editor: Georgios Mitsis

Theme 2. Biomedical Imaging and Image Processing

Editor: Jim Ji
Co-Editor: Amir Amini

Theme 3. Micro/Nano-bioengineering; Cellular/Tissue engineering & Biomaterials,

Editor: Esmail Jabbari
Co-Editor Nathalia Peixoto

Theme 4. Computational systems & synthetic Biology; Multiscale modeling,

Editor: Socrates Dokos
Co-Editor: Jie Liang

Theme 5. Cardiovascular and Respiratory Systems Engineering

Editor: Ramakrishna Mukkamala

Theme 6. Neural and Rehabilitation Engineering

Editor: Richard Jones
Co-Editor: David Guiraud

Theme 7. Biomedical Sensors and Wearable Systems

Editor: Emil Jovanov
Co-Editor: Paulo Bonato

Theme 8. Biorobotics and biomechanics

Editor: Yasin Dhaher

Theme 9. Therapeutic & Diagnostic Systems and Technologies

Editor: Dorin Panescu
Co-Editor: Dieter Haemmerich

Theme 10. Biomedical & health informatics

Editor: Mark van Gils

Theme 11. Biomedical Engineering Education and Society

Editor: Bruce Wheeler

Theme 12. Empowering Individual Healthcare Decisions through Technology

Editor: Atam P Dhawan

Associate Editors

Theme 01. Biomedical Signal Processing

Barbieri, Riccardo

**Theme 03. Micro/Nano-
bioengineering; Cellular/Tissue
Engineering & Biomaterials**

Capadona, Jeffrey
Docheva, Denitsa
Morss Clyne, Alisa
Jabbari, Esmail
Lee, Hyunjoo Jenny
Almasri, Mahmoud
Peixoto, Nathalia
Lord, Megan

**Theme 04. Computational Systems
& Synthetic Biology; Multiscale
Modeling**

Dash, Ranjan
Dokos, Socrates
Gardiner, Bruce
Grayden, David B.
Liang, Jie
Nielsen, Poul
May, Elebeoba

**Theme 05. Cardiovascular and
Respiratory Systems Engineering**

Armoundas, Antonis
Chbat, Nicolas W.
Di Rienzo, Marco
Heldt, Thomas
Li, John K-J.
Mukkamala, Ramakrishna
Penzel, Thomas
Sugimachi, Masaru
Tawhai, Merryn

Vigmond, Edward
Terrill, Philip

**Theme 06. Neural and
Rehabilitation Engineering**

Abbas, James
Astolfi, Laura
Azevedo-Coste, Christine
Babiloni, Fabio
Butera, Robert
DiGiovanna, Jack
Guiraud, David
He, Jiping
James, Christopher
Jones, Richard D.
