

EMBC'16

Daily Highlights!

Saturday is for Students! (of all ages)

Oral sessions begin at 8:00 am and at 11:00 am.

We have a superb keynote talk exactly bridges the potential of precision medicine with the growing entrepreneurship of our members and especially our students. Ram Fish, who has extensive experience developing consumer bio-health products with Samsung and now his own startup company, will discuss To the journey ahead: From the Lab to the Market: Real life stories, lessons and reflections, including his latest product GALE, the first smart First Aid Kit <https://www.youtube.com/watch?v=OZi0PuVurR4>.

The Personal Health Challenge <http://design.embs.org/> continues with a beginning session at 8:30, **Mr. Fish's** keynote at 9:30, and Breakout Session at 10:45 on Design Greenhouse, Ethics Workshop, Hall of Dragons, Human Factors, and Lab Startup. The final event is a World Café lunch and exchange of ideas among participants.

Thanks for attending!

*See you next year in the absolutely gorgeous Jeju Island, Korea.
EMBC18 is in Hawaii.*
